PROFESSIONAL SUMMARY

BS Computer Science graduate with practical full-stack development experience. Skilled in web technologies, databases, and using AI tools (Claude, DeepSeek, ChatGPT) to debug and generate code efficiently. Seeking an entry-level role in software or web development to apply my knowledge and grow professionally.

EDUCATION

BS Computer Science **2022 – 2026**
University of Agriculture, Faisalabad

- **Coursework:** Data Structures, Database Systems, Web Programming, OOP, Artificial Intelligence, Data Encryption.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, C++
- **Web & Databases:** HTML5, CSS3, MySQL
- **AI Tools:** Claude, DeepSeek, ChatGPT (code generation, debugging, optimization)
- **Developer Tools:** Git, GitHub, VS Code, MS Office
- **Soft Skills:** Problem Solving, Team Collaboration, Adaptability

EXPERIENCE

Full-Stack Developer Intern **June 2025 – September 2025**
Subtle Marketing

- Customized client websites and contributed to a service-based accounting platform.
- Developed backend APIs and responsive frontend interfaces.
- Collaborated with senior developers on debugging and feature development.
- Delivered a live client project: hifsakhansalon.com

PROJECTS

Rizwan Fast Food — Point of Sale System | Live Demo

- Developed a web-based POS system for order management and billing.
- Implemented an intuitive UI for quick item selection and transaction processing.
- Built with modern web technologies and deployed via Vercel.

Crop Disease Detection Web Dashboard **Final Year Project**

- Developing a web app using a MobileNetV2 CNN to detect crop diseases from user-uploaded images.
- Prepared and preprocessed a dataset covering 8 crop types for model training.
- Designed a dashboard that identifies disease types and suggests treatments.

Crypto Price Tracking & Prediction Discord Bot

- Built a Discord bot using JavaScript and Discord.js to track real-time crypto prices and trends.
- Integrated CoinGecko and Finnhub APIs for real-time market data retrieval.
- Deployed using Railway and Vercel with GitHub hosting.

Smart Home Automation System

- Designed an IoT-based home automation system using Arduino.
- Integrated sensors and actuators to efficiently control home appliances.

CERTIFICATIONS

- **IBM Data Analyst Professional Certificate** – IBM (Coursera) | Verify Certificate
- **Create Lead Generation Messenger Chatbots** – Coursera
- **Foundations: Data, Data, Everywhere** – Google
- **Ask Questions to Make Data-Driven Decisions** – Google

LANGUAGES

Urdu (Native) • **English** (Professional working proficiency)
